File: The Injustice and Unfairness  
of this Trial

① The Court - which has absolutely no jurisdiction over me or my case

② The Charges - which is being treated as 'murder' while the U.S government is at war with the Islamic Nation

③ The Prosecutors - who are being used as "scapegoats" by the Feds to hide their mishaps and poor counter-jihadism skills which could have detected and thwarted my jihadi operation

④ The Judge - who is a "tyrant", that has violated and abused his authority by denying me my legal rights and important motions and judging mankind by man-made laws and not Allah's Laws

⑤ The Defense Attorneys - whom I dislike and don't want! One, who is a "stooge" for the state and has been in close collaboration with his friends, the prosecutors. The other who is an egotistical, liar Kafir, hired and paid by another Kafir to represent me.

And whose main objective is to gain his 15 minutes of fame in the time left to ~~boost~~ <sup>boost</sup> his career as a paid-liar and is not really concerned about my well-being. I've tried to fire them both!

⑥ - The Detorse - The false notion of me being or having mental retardation is "a crock." The evidence being a written lie by a "bald-headed Sikh" who interrogated me about religious beliefs and not mental health or stability. I not only finished high school but went to college, I read and worked abroad, learned to speak 2 different languages - including one as difficult as Arabic!

⑦ The Defendant (me) - I am not a capital murderer nor criminal! I haven't had any felon convictions on my record before this attack on The U.S. Crusaders

It was an Act of War carried out on U.S. Soil by a Muslim of West-African descent. So I should be treated as a P.O.W and released after The Almighty gives Muslims our long-awaited victory in this war against The Roman, Crusader, Zionist alliance. - NATO

This is all proof which I will be using at my appeal and it will most definitely be labeled a mistrial. So get ready!

Case # CA 2009-2626 and Muslims

Motion to Suppress

This a motion which should not be denied which this kangaroo court has done over and over again. This a Motion to suppress any false information that my two lying, deceiving, unwanted Kafir attorneys have submitted to the court regarding my mental health. The false bogus information should be suppressed and not be allowed to be in court as defense evidence. It was written by a paid puppet hired by the Kafir lawyers as a mental evaluator. I'm not pleased with my defense nor defense attorneys, and this will most definitely result in a mistrial. So get ready!
