## Facts Constituting Probable Cause

On January 2, 2014, Mark Fraiser reported a burglary at his home, located at Chincapin Street. Fraiser stated he left his home on December 27, 2013 and returned on January 2, 2014. Fraiser said when he returned he discovered that an unknown suspect had forced entry inside his home through the rear sliding door. Fraiser advised several items were stolen including, two handguns and one shotgun. Fraiser stated the firearms totaled a combined value of \$1050.00. I, Detective Haynie, responded to the residence in attempt to preserve and collect any possible evidence. Several items were collected and sent to the state crime lab for possible DNA identification. Included in those items was a "Newport" cigarette butt, which was located inside an ashtray, in the living room. Fraiser explained that he smokes "Marlboro" brand cigarettes and stated the suspect had to be the only one who could have left the "Newport" cigarette, due to the fact that no one has been in his home recently that smokes "Newport" cigarettes and the "Newport" cigarette was not there when he left his home on December 27, 2013.

On March 3, 2014, I received a return from the crime lab, which indicated that the DNA from the "Newport" cigarette, "hit" or matched against DNA from Andrea "Andi" Davis (DOB: ).
