I've never been a big excuse guy. Bentonville is on another level with there program. Here is where we have to make up the short fall in Central Arkansas

I will just compare NLR with Bentonville and Fayetteville.

1.NLR paid assistant coaches 6

They have 9 to 10

2. My 9th grade program is not made to run our system. Not because I haven't tried. Only help we get from 9th grade coaches is Hudl video. Nothing on Friday night.

They have a system on off and def and run it in 8th and 9th grade. They also have all of

They have a system on off and def and run it in 8th and 9th grade. They also have all of those coaches from 8th and 9th grade on Friday nights. They do not have 7th grade football in NWA at the school.

We have 2 8th grade coaches.

3. We don't have a football budget. A lot of people think that our district spends a lot of money on Football. Not true we raise 4 X more than the school spends.

They have a football budget and know exactly what they have to spend and what they have to raise money for every year.

4. I have 4 classes and two lunch duties.

No one else in all of 7A teaches.

With that said I'm not throwing anyone under the bus but these are the major

With that said I'm not throwing anyone under the bus but these are the major problems that can be fixed if they want to fix them.

I'm very proud of my coaching staff we work very very hard for the players, school and community.

If we want any chance to bring the State Title back here those things will have to be done.

Lastly for those people that say we have the best athletes so there for we should win it every year. That's so far from the truth.

Anyone that knows this game knows that just having good athletes won't bring you a title. 1. Not a lot of injuries 2. Big physical o-line and d-line. 3. Depth 4. Team must gel 5. Win 3rd dwn eff. 6. Win turnover margin 7. Great special teams 8. Players must believe.

Lastly I do take personal responsibility as the Head Coach. Ultimately it's my fault.

We will not stop fighting to be the best we can be.
