

STATEMENT:

Timothy Spears categorically denies this charge by the State of Arkansas. The Affidavit for Warrant of Arrest in this case completely justifies the actions of Timothy Spears and does not contain any evidence to support this charge. The Investigator assigned to investigate the incident, Trooper Ted Jones, even states in the affidavit that there was no evidence learned as a result of his investigation that Timothy or Michael Spears had any intent to inflict injury on this aggressive inmate. There are motives afoot that have nothing to do with seeking the truth or justice. Like we have seen across the country, law enforcement officers are under attack for simply doing their jobs. As a member of the Southern States Police Benevolent Association (PBA), Mr. Spears will receive the benefit of a comprehensive and vigorous defense, including experts on use of force, jail regulations, and juvenile detention, because without these PBA resources, most law enforcement officers could not properly defend this type of unbelievable prosecution.
