RE: INSPECTION: PERMIT 330 -- LAKE FAYETTEVILLE – WASHINGTON CO.

Dear Mr. Jurgens:

I performed my inspection of Lake Fayetteville Dam on the 9th of May 2012. Our records indicate that this dam's hazard classification is "high" and that the spillway will accommodate less than 50 percent of the PMF. The last record we have on file of you executing a tabletop exercise of your emergency action plan is the 21st of January 2004.

I am pleased to report to you that no deficiencies were identified during my visit. Please continue with your regular maintenance efforts.

Thank you for your management of this resource.

Sincerely,

Ryan Brooks, E.I.T.
Hydrologic Engineer
