

An unknown white male wearing a red shirt was out in front and had a gray or silver colored item in his raised right hand. The male ran over to where the deputies were actively attempting to place someone under arrest. I fired 1 ALS 1212 Triton Bean bag round at the subject as he neared the deputies on the ground. I aimed for the subject's right thigh, and the round impacted right above his right hip. The unknown male stumbled and continued towards the deputy. I immediately fired one more bean bag round again aiming for his right thigh and that round impacted just above the previous round on the subject side. The unknown male went to the ground and was assisted out of the area by other protesters.
