* Denominator includes occupied beds of all types (e.g., medical/surgical, ICU, psych, OB, ED, etc.)
** Available staffed beds and resources, regardless of type of hospital or location within region. Not all may be appropriate for COVID-19 patient care. See map link below for hospital regions.
*** Not a mutually exclusive category; includes beds also included in other categories.

Not for distribution or use by the press. All hospital data are from EMResource. EMResource provides a self-reported snapshot of hospital resource use and availability, which is updated twice daily by Arkansas's hospitals. Data released publicly by ADH are pulled later in the morning, and therefore will differ. While we correct any errors that we detect which are correctable, these are administrative grade data and are subject to some amount of error. For capacity data, click here. For a map of the hospital regions, click here.
