

My last Director Adcock
(sorry I don't know how)

My last job was to make
summer jobs for youth - not 500 - 700
external down at CC and Mitchell
L&D working with them
clean up the city - money to neighbors
to pay youth and seniors - work with
NLS and Wood Brothers - sign up
to clean the neighborhood
Last job was on lot and no charge
stop charges on water bills for paid work

Get people out of low cost -
around Dodge street nothing extra -
don't do stuff now because of low pay
going to other cities
Back to Homeless Program to pick up trash

Get the money down to people
and neighborhoods

The youth is #1 - all of this will
have cost them the most

#2 Neighborhoods

Clean up
building good relations
Enforce Codes

Joe Adcock
City Director

Subject: RE: On my personal iPad

1. Summer jobs for Youth not 300 (but 700)
2. Extend hours at Boy and Girls Clubs and Community Centers and have LRSD work with them
3. Clean up City of Little Rock
 - a. Pay youth and seniors
 - b. Work with Neighborhood Resource Services and Ward Directors to sign up to clean the neighborhoods
4. Landfill open every Saturday at no charge
5. Stop charges on water bill for trash pick up
6. Get people out of environmental court
7. Animal village staff received nothing extra for working full time when others did
8. Animal Village is Down ½ staff now because of low pay they are going to other cities with better pay
9. Back to Homeless programs to pick up trash on the streets
10. Get the money down to people & neighborhoods
11. The Youth is #1 all of this will cost them the most
12. Neighborhoods
 - a. Cleanup and fix ups
 - b. Family community events to build relationships
 - c. Enforce codes

One other project is expansion of capacity at the Fourche Treatment plant for economic development purposes. Project treehouse.

1. Partnering with PUCO, LR Water Reclamation to Run 13 miles of force main in the etj to complete sewer for little maumelle basin.

All of these projects would require revenue replacement to be able to find them.

1. Land Acquisition at the port

2. Partnering with PUCO on Cooper Orbit and Western part of Kanis past Chenal parkway.

Regards,

Lance Hines

Director Phillips:

Thank you for providing your suggested uses for the American Rescue Plan Act funds. Mr. Moore and I will review and strongly consider your suggestions as we prepare the ARPA funding ordinance for City Board approval.

City Directors:

As requested at our May 25th City Board Agenda, please don't forget to share your suggested uses of ARPA funds by close of business today.

I Appreciate You,
FSJ

Mayor and Bruce:

Per the Mayor's request at the May 25, 2021 Agenda Meeting, please accept this correspondence as my suggested uses for the ARP Funds. I understand that these suggestions must be considered in the context of the City's revenue loss, which I know we will not know until we receive further guidance from the federal government.

1. To provide some funding for the Targeted Community Development Initiatives in the qualified census tracts.
2. To increase one-time funding for violence prevention programs - likely through the PYT model.
3. Initial investment to create more affordable housing (rehabbing or development).
4. To renew and expand the 2020 small business grant program for small businesses and local non profits.
5. To create a rental assistance and utility assistance fund for families behind on rent and utility bills.
6. To add WiFi towers south of 630 - I recognize this will be an ongoing expense so that would need to be accounted for before we enact this suggestion.
7. To address the opportunity gap for opportunity youth, ages between 18 - 25, by implementing programs such as www.gradsoflife.org to provide job training and job opportunities.
8. To address infrastructure needs (and any other eligible needs) to resolve issues

that may have prevented the opening of a grocery store in the [12th Street](#) corridor.

9. To provide additional support to find housing for our residents experiencing homelessness through partnering with existing homelessness providers.
10. To fund academic/athletic programming at community centers and boys/girls clubs.
11. Coordination with Pulaski County to ensure that is no unintentional overlapping of uses.

I look forward to future discussions on how to use these funds. Thanks.

Good afternoon Mayor and Bruce,

Please excuse my tardiness in getting this information to you regarding the American Rescue Plan funds Little Rock is receiving. The restaurant world is crazy now with all of us experiencing record price increases, shortages on even basic items and difficulties staffing up now that we are all open at 100% capacity again.

PUBLIC HEALTH MEASURES

Evidence-based community violence intervention programs to prevent violence and mitigate the increase in violence during the pandemic.

In addition to the increase in gun violence, there has been a tremendous increase in domestic violence and abuse. I would like to see us work closely with the LRPD and Women & Children First.

BROADBAND INFRASTRUCTURE

Expand broadband to unserved and underserved households

WATER & SEWER INFRASTRUCTURE

Fourche Creek Watershed – the most important watershed in Arkansas which drains and filters almost 75% of the runoff in Little Rock

Work with Audobon, Drain Smart project and others to clean Fourche up and protect our watershed

Green infrastructure projects including rain gardens and other bioretention facilities, green streets and projects that address smart stormwater management. This could also help address drainage issues which exist in many parts of our city.

ADDRESS NEGATIVE ECONOMIC IMPACT

Promote healthy childhood environment with evidence-based programs such as OK program, GEMS, Cooking Matters (Arkansas Hunger Relief Alliance)
food deserts, community gardens

Regards,

Capi

Mayor and Bruce,

I concur with Director Phillips' recommendations and I believe he has outlined an appropriate conceptual framework and I believe we can fine tune this approach to ensure infrastructure redevelopment via human capital redevelopment. This approach is far better than adding more police officers to address the social ills that produce the crime that we "selectively" complain about. I'll say it again to the tune of a broken record, we can't POLICE our way out of this!!!

Have you guys received any feedback from other colleagues?

Ken Richardson
City Director
Ward 2
