

Hello, my name is Chris Highway working in partnership with Mayor Kelly's office and Ellis Smith, director of special events (see attached letter and press release video from mayor).

The city of Chattanooga thought you would be a great fit for this upcoming project. We are putting together and filming an official community video tour to connect new families moving into the area with essential services along with modernizing the community online and its digital presence for relocating families and showcasing the diversity in towns and businesses as the city is rapidly growing.

It will be an Interactive video tour that will be published and featured on the official municipal website in early 2023 to educate the community on the provided services that are offered. This is the first time that the city is allowing businesses to be a part of their official website and we will be producing sections on healthcare, real estate, education, manufacturing, shopping & dining, retail, automotive and other professional services.

We are already working with:

Grace Frank Group

Tinker Ma, Inc.

Revive Aesthetics & Wellness
