INTRODUCTORY SECTION

CITY OF LAFAYETTE
SOUTH DUKE STREET
P.O. BOX 89
LAFAYETTE, GEORGIA 30728

March 16, 2011

To the Honorable Mayor, Members of the City Council
And Citizens of the City of LaFayette

It is our pleasure to submit the Comprehensive Annual Financial Report (CAFR) of the City of LaFayette, Georgia, for the fiscal year ended September 30, 2010. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the City. To the best of our knowledge and belief, the enclosed data are accurate in all material respects and are reported in a manner designed to present fairly the financial position and results of operations of the various activities of the City. Disclosures necessary to enable the reader to gain an understanding of the City's financial activities have been included.

State law requires local governments to publish within six months of the close of each fiscal year a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) as promulgated by the GASB. This report is presented in three sections and includes the following information.

Introductory section – Includes this letter of transmittal with comments on the operations of the City, the City's organizational chart, a list of principal elected and appointed officials, and the Government Finance Officers Association of the United States (GFOA) Certificate of Achievement for Excellence in Financial Reporting for the City's 2009 report.

Financial section – Includes management's discussion and analysis, government-wide financial statements, fund financial statements, notes to basic financial statements, and required supplementary information, as well as the report of independent public accounts on the financial statements and schedules. The City also includes an additional supplemental section that includes the combining fund financial statements for nonmajor funds, but it is not a required section of the report.

Statistical section – Includes selected financial and demographic information, generally presented on a multi-year basis, and various continuing disclosure information.

The new reporting model issued by the GASB requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of management's discussion and analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The City's MD&A can be found immediately following the independent auditor's report.

Profile of the Government

LaFayette, the county seat of Walker County, was incorporated on September 30, 1835. The City is located approximately 35 miles south of Chattanooga, Tennessee and has an incorporated area of approximately seven square miles.

The City is governed by a Mayor and a City Council comprised of five members. The Mayor is elected citywide every four years for a four-year term. Council members are elected from each of the five wards of the City for a four-year term. The City Manager is appointed by the Mayor and Council.

The Reporting Entity

The accompanying CAFR includes all governmental activities, organizations, and functions for which the City is financially accountable.

The City provides a full range of municipal government and utility services. Included in these services are traditional city functions such as police and fire protection, highway and street maintenance, culture and recreation, public improvements, planning and zoning, and general administrative services. In addition to general government activities, the City has several enterprise operations including electric, gas, solid waste, water and sewer, golf and a municipal airport.

A related organization not included as part of the reporting entity is the LaFayette Housing Authority, which provides low-income housing to eligible City residents. The reason for not including this entity is that the City is not financially accountable (does not impose will or have a financial benefit or burden relationship) for the organization.

Economic conditions and outlook

LaFayette remains in good financial condition, as is demonstrated by the financial statements and schedules included in this report. The assessed value of all taxable property (2009 digest) increased by 10.7% over the 2008 valuation. The business environment outlook for LaFayette continues to be favorable despite the economic downturn experienced by other regions of the country. The City's broadly diversified economic base supports several nationally known companies, including GE, Shaw and Colorspectrum, as well as other smaller commercial and industrial companies. Some of the reasons that these enterprises chose LaFayette as a local or regional business center include: the City's strategic Southeast location, convenience to local and national highways, rail and air transportation, city owned utilities at low rates, abundant labor, educational and cultural resources, and overall quality of life.

As the Council was considering the fiscal year 2010 adopted budget, the City was still feeling the effects of the local and national slowdown in the economy. Department Heads were instructed to take a very conservative approach toward revenue and expenditure projections, but also to look at ways to make their department (and the City) safer and more secure. During the year, the budget was amended mostly to adjust for additional revenue and expenditures. The expected growth within the community should help to increase revenue so as to prevent the requirements to obtain additional funding through loans in the foreseeable future. As part of the City's long-term financial planning efforts, and also to take advantage of currently lower interest rates and to allow for additions and improvements of capital projects even in a downturn economy, the City issued bonds in October, 2008. While this budget has been one of the most challenging to manage in many years, all city employees helped by continuing to provide quality services and to meet the needs of our citizens.

FINANCIAL INFORMATION

Accounting Systems and Budgetary Control

In developing and evaluating the City's accounting control system, consideration is given to the adequacy of internal accounting controls. Accounting control comprises the plan of organization and the procedures and records that are concerned with the safeguarding of assets and the reliability of financial records and consequently are designed to provide reasonable assurance that:

Transactions are executed in accordance with management's general or specific authorization.

Transactions are recorded as necessary (1) to permit preparation of financial statements in conformity with generally accepted accounting principles or any other criteria, such as finance-

related legal and contractual compliance requirements applicable to such statements, and (2) to maintain accountability for assets.

Access to assets is permitted only in accordance with management's authorization.

The recorded accountability for assets is compared with the existing assets at reasonable intervals and appropriate action is taken with respect to any differences.

The City's internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. Reasonable assurance recognizes that the cost of a control should not exceed the expected benefit.

We believe that the City's internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

The official level of City budget control (the level on which expenditures may not legally exceed appropriations) for each legally adopted annual operating budget is the activity (department) level. The City Manager and all department heads are provided with monthly budget reports showing appropriations, expenditures to date, remaining balances and percentages. The City's budget procedures are more fully explained in the accompanying Notes to the Financial Statements.

Local Economy

Major industries located within the government's boundaries include a home appliance manufacturer, and several industrial component manufacturers, supplying the automotive and textile industries. All have been ongoing business concerns for at least the last ten years, and their economic viability is expected to continue, in spite of the national economic downturn, which has had a fairly substantial impact on the local economy, mainly in the form of layoffs and reduced production shifts. None of the aforementioned industries currently anticipates total business closure.

The previous ten years' trend data indicates that an economic upswing at the national level would also have an effect at the local level, allowing these industries to return to production and employment levels previously enjoyed.

Major Initiatives

With the voters' approval of a proposed special purpose local option sales tax (SPLOST) referendum, City management decided to issue general obligation bonds equal to the City's share of the expected revenue from the one cent SPLOST tax over its five-year life. This bond issue allows the City to expedite completion of various projects and equipment acquisitions to better, and in a more timely fashion, serve the citizenry. The bonds will be repaid over five years with future SPLOST proceeds.

OTHER INFORMATION

Independent Audit

The City Charter requires an annual audit by independent certified public accountants. The accounting firm of Williamson & Company was selected by the City Council. Generally accepted auditing standards and the standards set forth in the General Accounting Office's *Government Auditing Standards* were used by the auditors in conducting the engagement. The auditor's report on the general-purpose financial statements and combining and individual fund statements is included in the financial section of this report. The auditor's report on internal controls and compliance with applicable laws and regulations can be found in the last section of this report.

Awards

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of LaFayette for its comprehensive annual financial report for

the year ended September 30, 2009. In order to be awarded a Certificate of Achievement, the City published an easily readable and efficiently organized comprehensive annual financial report. This report satisfied both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Acknowledgments

We wish to take this opportunity to thank the Mayor and Council for their interest and support in planning and conducting the financial operations of the City in a responsible and progressive manner. The preparation of this report could not be accomplished without the efficient and dedicated service of the entire staff of the City Clerk's office. We would like to express our appreciation to all members of the staff who assisted and contributed to its preparation.

Respectfully submitted,

Johnnie Arnold
City Manager

Brenda Snyder
City Clerk

Certificate of Achievement for Excellence in Financial Reporting

Presented to

City of LaFayette
Georgia

For its Comprehensive Annual
Financial Report
for the Fiscal Year Ended
September 30, 2009

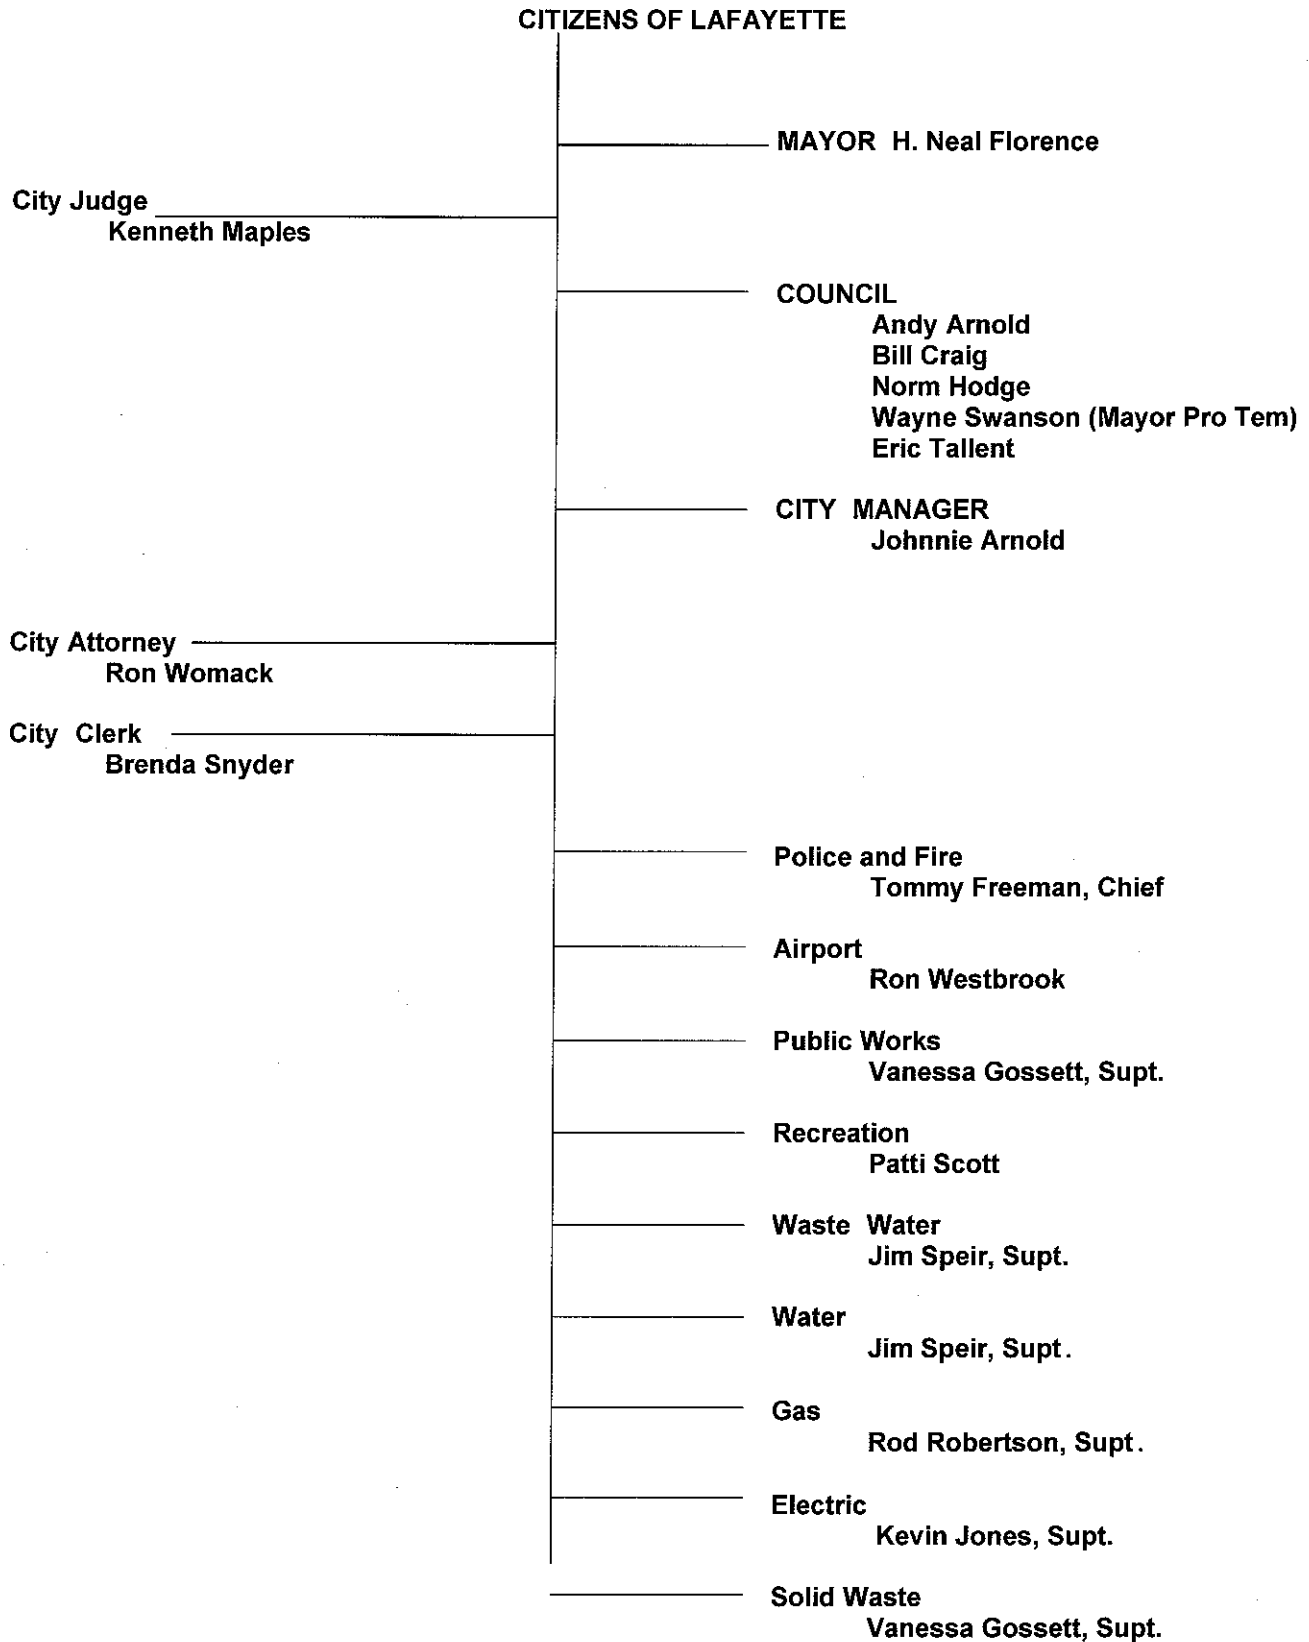

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

INDEPENDENT AUDITOR'S REPORT

The Honorable Mayor and Council
City of LaFayette
LaFayette, Georgia

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of LaFayette, Georgia, as of and for the year ended September 30, 2010, which collectively comprise the City's basic financial statements as listed in the table of contents. We also have audited the financial statements of each of the City's nonmajor governmental funds presented as supplementary information in the accompanying combining financial statements as of and for the year ended September 30, 2010, as listed in the table of contents. These financial statements are the responsibility of the City of LaFayette, Georgia's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material aspects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of LaFayette, Georgia as of September 30, 2010, and the respective changes in financial position and cash flows, where applicable, thereof and the respective budgetary comparison for the general fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated March 23, 2011, on our consideration of City of LaFayette, Georgia's internal control over financial reporting and our tests of its compliance with certain laws, regulations, contract and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The accompanying management's discussion and analysis on pages 13 through 24 are not a required part of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquires of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of LaFayette's basic financial statements. The combining and individual fund statements and schedules, as well as the schedule of projects constructed with special local option sales tax proceeds, as required by the Georgia code section OCGA 48-8-121, are presented for purposes of additional analysis and are not a required part of the basic financial statements of the City of LaFayette, Georgia. The information in these schedules has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole. The accompanying information in the introductory section and the statistical tables has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

Management's Discussion and Analysis

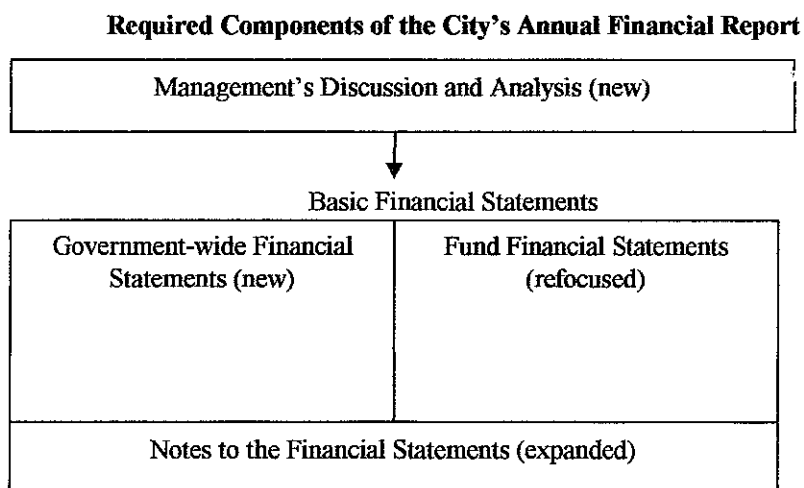

This section of the City Lafayette's annual financial report is designed to provide the reader a better understanding of the City's financial activity for the fiscal year that ended September 30, 2008. It should be read in conjunction with the Transmittal Letter at the front of this report and the City's financial statements, which follow this section. Notes mentioned below are Notes to the Financial Statements, which follow the statements.

Financial Highlights

- The City's total assets exceed liabilities by \$31,386,859 at the end of the year. This amount includes \$25,575,489 invested in capital assets net of accumulated depreciation and related debt, restricted net assets of \$1,529,078 and unrestricted net assets of \$4,282,292. Significant portions of restricted net assets include amounts for debt service and construction.
- The City's total net assets increased by \$1,005,643, or 3.31% to \$31,386,859. The net assets for governmental activities decreased by \$191,166 or -3.94% and business-type net assets increased by \$1,196,809 or 4.69%.
- The City's revenues for governmental activities were \$4,124,367, excluding transfers and bonds issued. Expenses, excluding transfers, were \$5,932,732.
- The City's business-type activities, excluding transfers, had revenues of \$16,328,470, while expenses, excluding transfers, were \$13,514,462.
- The General Fund, which is the City's primary operating fund, reported a decrease in fund balance of \$552,942 in fiscal year 2010.
- The City's governmental activities long-term debt balance (Note 8) had a net decrease of \$501,147. This change represents the payment of outstanding revenue bond principal of \$495,000. This change also reflects a compensated absences decrease of \$6,147. The balance on the outstanding debt for business-type activities had a net increase of \$1,616,568. This change represents issuance of additional notes payable of \$2,322,306, payment of outstanding revenue bond principal of \$555,000 and notes payable principle of \$148,308. This change also reflects an additional compensated absences increase of \$2,430.
- Total cash (Note 3) at September 30, 2010 was \$4,356,672.
- The capital assets (Note 6), net of accumulated depreciation, of the City at the end of the 2010 fiscal year totaled \$35,293,817. This includes net capital assets for governmental activities of \$6,756,948 and business-type activities of \$28,536,869.

An Overview of the Financial Statements

In light of the fact that this is a different presentation from the pre-GASB Statement 34 model, the following graph is provided to assist in understanding the component parts.

The focus of the financial statements is on both the City's overall financial status and the major individual funds. The following briefly describes the component parts.

GOVERNMENT-WIDE STATEMENTS

The government-wide financial statements are designed to report information about the City as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net Assets combines all of the City's current financial resources with capital assets and long-term obligations. Net assets, the difference between the City's assets and liabilities, are one way to measure the City's financial health.

The government-wide financial statements of the City are divided into three categories:

- **Governmental activities** – These include the basic services provided by the City including police, fire, parks and recreation, public works and general administration.
- **Business-type activities** – These include services for which the City charges specific fees which are meant to cover the cost of providing the services. These include electric, gas, water and sewer services, solid waste collection, municipal airport and golf.

Governmental activities and business-type activities are consolidated and add to the total for the primary government.

FUND FINANCIAL STATEMENTS

The fund financial statements provide more detailed information about the City's major funds rather than the City as a whole. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City has two types of funds as described in the chart below.

Fund Financial Statements

	Governmental Funds	Proprietary Funds	Fiduciary Funds
Scope	Includes the City's basic services such as police, fire, traffic control, cultural activities, and parks	Services provided by the City that are operated similar to private businesses and for which the City charges a fee	Funds for which the City is the trustee or agent for someone else's resources
Examples	Police, fire, street and sidewalks, parks, and recreational activities	Electric, Gas, Water and Sewer and Solid Waste	City's revolving loan fund
Required financial statements	- Balance Sheet - Statement of revenues, expenditures, and changes in fund balances	- Statement of net assets - Statement of revenues, expenses, and changes in net assets - Statement of cash flows	- Statement of fiduciary net assets - Statement of changes in fiduciary net assets
Accounting basis and measurement focus	Modified accrual accounting and current financial resources focus	Accrual accounting and economic resources focus	Accrual accounting and economic resources focus
Type of asset / liability information	Only assets expected to be used up and liabilities that come due during the year or soon thereafter, no capital assets included	All assets and liabilities, both financial and capital, and short and long-term	All assets and liabilities, both short and long-term; capital assets, if any, are included
Type of inflow / outflow information	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and payment is due during the year or soon thereafter	All revenues and expenses during the year, regardless of when cash is received or paid	All revenues and expenses during the year, regardless of when cash is received or paid

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The following table reflects the condensed Statement of Net Assets for the current year. The City's net assets increased by \$1,005,643, or 3.31% in fiscal year 2010. The net assets of the governmental activities include \$5,215,221 investment in capital assets. Capital assets of \$6,756,948 include land, buildings, park improvements, equipment and current year infrastructure additions. Related debt includes revenue bonds of \$2,905,000.

The net assets of the business-type activities include \$21,723,541 investment in capital assets. Capital assets of \$28,536,869 include land, utility system, building, other improvements, equipment, airport and golf course. Related debt includes notes of \$5,710,555 and water/sewer revenue bonds of \$1,125,000.

For more detailed information, see the Statement of Net Assets on page 27 of the financial statements and the notes to the financial statements.

CHANGES IN NET ASSETS

The City's total revenues before transfers were \$20,452,837 in the 2010 fiscal year. Expenses before transfers were \$19,447,194 during that same period. Governmental and business-type activities combined provided a \$1,005,643 increase in net assets.

Governmental activities revenues were \$4,124,367 and included \$1,265,237 charges for services, \$294,868 grant revenues, \$464,412 property taxes and \$1,116,086 sales taxes. The largest governmental activities expenses were for public safety of \$2,330,277 (police, fire and animal control), public works of \$1,198,003, general government of \$984,125 and recreation of \$880,389. Expenses include depreciation expense as explained in the notes to the financial statements (Note 6).

Business-type activity revenues were \$16,328,470 and included \$15,900,958 charges for services, \$301,847 intergovernmental revenues, and \$10,105 interest. The largest business-type activity expenses were for purchase of energy for resale to customers, electricity for \$4,995,701 and gas for \$1,734,132.

Fiscal Year 2010**

Revenue Impacts:

- Property taxes of \$464,412 provided 18.1% of governmental revenues for general operations. The millage rate was set at 2.9 in the current year.
- Revenues from local option sales taxes were \$1,116,086. This represents an overall decrease of 23.69% from the prior year.
- The transfers from proprietary funds were \$1,617,199, which was \$627,680 or a 63.43% increase from the prior year.
- Charges for services include amounts charged for providing utility billing and collection services to the enterprise funds of \$696,000. Municipal court fines were \$98,390.

Expense Impacts

- General Government expenditures decreased by \$87,157 or (8.14%) compared to the prior year. This decrease is the result of overall decreases in operating expenses such as fuel costs and a decrease in the number of employees due to abolition of 4 jobs.
- Police, fire and animal control expenditures increased by \$165,698 or 7.11% over the prior year. This increase represents an increase in payroll and fringe benefits along with slight increases in overall operating expenses.
- Public Works expenditures increased by \$245,666 or 20.51% compared to the prior year. This amount represents an increase in paving material costs, insurance costs, sidewalk maintenance and flood damage repairs that were required.
- Culture and Recreation expenditures increased by \$44,255 or 5.03%. This increase is due to increases in salary and general maintenance expenses.

BUSINESS-TYPE ACTIVITIES

**Table 4
Business-type Activities
(in thousands)**

	<u>Operating Revenues</u>		<u>Operating Expenses</u>		<u>Operating Income</u>	
	<u>2010</u>	<u>2009</u>	<u>2010</u>	<u>2009</u>	<u>2010</u>	<u>2009</u>
Electric	\$ 8,083	\$ 7,314	\$ 6,356	\$ 5,942	\$ 1,727	\$ 1,372
Gas	2,978	3,079	2,326	2,524	652	555
Water/Sewer	3,689	3,322	3,022	2,915	667	407
Solid Waste	485	505	548	469	(63)	36
Golf	554	599	768	729	(214)	(130)
Airport	112	99	349	339	(237)	(240)
Total	<u>\$ 15,901</u>	<u>\$ 14,918</u>	<u>\$ 13,369</u>	<u>\$ 12,918</u>	<u>\$ 2,532</u>	<u>\$ 2,000</u>

Operating revenues for business-type activities for the fiscal year 2010 were \$15,900,958, a \$982,700 increase compared to the prior year. Operating expenses were \$13,369,406 in 2010, \$451,501 more than the prior year. The operating income was \$2,531,551 in 2010 compared to \$2,000,352 in 2009. Activities for individual funds are summarized below.

- Electric program revenues increased by \$768,823 from the prior year in addition to expenses increasing by \$414,260. This is attributable to the colder than normal winter and the increase in power costs.
- Gas program revenues decreased by \$101,559 and expenses decreased by \$197,642. The decreases in both revenue and expenses were due to leveling natural gas prices. The larger decrease in expenditures was assisted by the cut in hours worked by all employees.
- Water & Sewer program revenues increased by \$366,322, while expenses increased by \$106,490 from the prior year. Revenue increased due to a small rate increase and a lifting of the water restrictions.
- Solid Waste program revenues decreased \$19,505 from the prior year and expenses increased \$79,026. The revenue decrease is attributable to the economic down turn and the expenses increased due to an increase in disposal fees.
- Golf revenues decreased by \$44,419 over the prior year, largely from less membership fees and golf cart fees due to the economic down turn. Expenses were up by \$39,177 for chemicals, insurance and general maintenance costs.
- Airport revenues increased by \$13,038 largely due to additional fuel sales. Expenses increased by \$10,190 from prior year. The increased fuel sales caused more fuel to have to be purchased, as well as some unexpected terminal repairs that were completed.

The City's Funds

**Table 5
Financial Analysis of the City's Funds**

Fund	Fund Balances <u>09-30-09</u>	Revenues/ Sources	Expenditures / Uses	Revenues/Sources Over (Under) Expenditures/Uses	Fund Balances <u>09-30-10</u>
General Fund	\$ 749,250	\$ 5,092,984	\$ 5,645,926	\$ (552,942)	\$ 196,308
Capital Projects Fund	<u>1,688,791</u>	<u>840,206</u>	<u>1,713,892</u>	<u>(873,686)</u>	<u>815,105</u>
Total City Funds	<u>\$ 2,438,041</u>	<u>\$ 5,933,190</u>	<u>\$ 7,359,818</u>	<u>\$ (1,426,628)</u>	<u>\$ 1,011,413</u>

At September 30, 2010, the City's governmental funds reported a combined fund balance of \$1,012,733 (see Statement on page 30), which is \$1,455,845 less than the previous year-end. The unreserved portion of fund balance was \$640,253. The unreserved fund balance may serve as a useful indicator of the City's ability to operate without external financing. The reserved portion represents amounts reserved for debt service payments related to the issuance of revenue bonds to finance capital projects construction.

General Fund

The General Fund had a \$552,942 decrease in fund balance, to end the fiscal year at \$196,308. More detailed information for the general fund is presented on page 31.

Operating revenues and other financing sources decreased \$103,471. Most of this decrease is attributable to lower sales tax collections as well as lower and slower property tax collections due to the economic down turn.

Overall expenditures and other uses increased \$432,680. Transfers out increased \$63,663.

Capital Projects Fund

The capital projects fund accounts for the proceeds from special purpose local option sales tax that are used to construct various improvements which benefit City residents. In June 2008, voters approved continuation of the one-percent special purpose local option sales tax. The period during which this tax is collected begins October 2008 and ends September 2013. Capital outlay expenditures are to be primarily for street and road improvements, recreation, water and sewer improvements, solid waste and street equipment. The major sources of revenue were:

- Sales tax \$611,404
- Interest earned \$18,308

The revenue bond issue will be repaid with special purpose local option sales tax proceeds over the approved period of the tax. The bond issue allows the City to proceed at an accelerated pace with acquisition/improvements of equipment and infrastructure to better serve its citizens.

The fund balance is reserved for completion of SPLOST projects as identified in the Schedule of Special Purpose Local Option Sales Tax on page 90.

GENERAL FUND BUDGETARY HIGHLIGHTS

A statement comparing the original and final budgets and the variance from the final budget to the actual results is included on page 33 of the financial statements.

In September 2009, the City Council appropriated \$4,809,700 for general fund expenditures in the 2010 fiscal year budget.

Primary reasons for the differences between the final budget and actual results in the General Fund include:

Revenues:

- Increase in Charges for Services
- Increase in taxes.

Expenditures:

- Increase in public works expenditures.
- Increase in expenditures for wages and capital outlays for general government and public works.

CAPITAL ASSETS

The City's investment in capital assets for its governmental and business-type activities as of September 30, 2010, amounted to \$35,298,817 (net of accumulated depreciation). Investment in capital assets includes land, buildings, infrastructure, improvements, and machinery and equipment. The total increase in the City's investment in capital assets for the current fiscal year was 7.32%. For more detailed information concerning capital assets see the notes to the financial statements.

Table 6
Capital Assets
(net of depreciation)

	<u>Governmental</u>	<u>Business-type</u>	<u>Total</u>
	<u>Activities</u>	<u>Activities</u>	
Land and Improvements	\$ 3,336,429	\$ 2,233,918	\$ 5,570,347

Improvements other than buildings	-	2,893,760	2,893,760
Furniture, machinery and equipment	1,214,566	1,376,459	2,591,025
Total	\$ 6,756,948	\$ 28,536,869	\$ 35,293,817

This year's major capital asset additions included:

Governmental Activities:

- Police - Equipment - \$112,879
- Fire - Equipment - \$25,261
- Recreation - \$915,992

Business-type Activities:

- Water and Sewer Improvements - \$3,074,579
- Gas Fund Distribution Improvements - \$117,060
- Golf Course Site Improvements and Equipment - \$27,433
- Solid Waste Equipment - \$14,000

LONG-TERM DEBT

At the end of the 2010 fiscal year, the City had \$9,740,555 in outstanding debt. This is a net increase of \$1,123,996 compared to the prior year. More detailed information about the City's long-term liabilities is included in the notes to the financial statements.

State statutes limit the amount of general obligation debt a governmental entity may issue to 10% of the total tax digest. The current debt limitation for the City is \$15,761,445 and the City has no outstanding general obligation debt.

**Table 7
Outstanding Debt at September 30, 2010**

	<u>Governmental</u> <u>Activities</u>	<u>Business-type</u> <u>Activities</u>

Notes Payable	-	5,710,555
Total	<u>\$ 2,905,000</u>	<u>\$ 6,835,555</u>

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

The overall decline in the economy, as well as high energy costs have negatively impacted the City. In addition to the loss of industries and businesses the current economic decline has been worsened by the mortgage crisis which has caused a decline in property values with a net loss in tax revenues. The sluggish economy has also caused a negative impact on the City's business – type activities. With unemployment at 11.9 %, there are many who can not afford to pay their utility bills.

Funding for the City's governmental activities comes from Property Taxes, Local Option Sales Tax, other taxes and fees such as Franchise Taxes, Occupational Taxes, permit fees, grants and transfers from the Enterprise Funds. During the 2008 Budget process, the City considered projections on the state and local economy to estimate tax revenues for the proposed budget.

Revenues for the business-type activities and certain governmental activities come from user fees and/or service charges. A significant portion of the revenues generated by the cities utility systems come from industrial customers. These revenues have been affected by the down turn in the economy. Also unusual weather patterns can affect utility consumption. A prime example is the 10% mandatory water reduction mandated by the State of Georgia, the high energy prices, and a colder than normal winter.

The City has a new softball complex under construction and should be completed by the end of the summer. The City has purchased a vacant 150,000 square foot Industrial building and is currently using it for all the public works and utility crews to operate from. A Streetscape Project funded by a TE Grant of \$200,000 has begun. The local match will come from SPLOST Funds. The improvements to side walks, landscaping and other beautification projects should help the Downtown Business District. Work should be completed at the Ross Abney Recreation complex on the new bleachers by the end of the summer.

The City has attained the designation of a "Main Street" City and continues to maintain certification from the National Trust for Historic Preservation. The Main Street Program along with the Downtown Development Authority working in conjunction with the TE Grant will improve the Downtown Business District.

The City continues to resurface its own streets under the Georgia Department of Transportation LARP Program. The Georgia Department of Transportation furnishes the asphalt and the city employees perform the work utilizing city equipment. This allows the City to complete twice as much resurfacing as would normally be done.

The City's General Fund Operating Budget totals \$4,972,300 for the 2011 year. Personnel costs, including salaries and benefits amount to \$3,923,550 or 78.9% of the operating budget. The City employs 133 full time employees.

In the Fiscal Year 2011 Budget, the General Fund Revenues are budgeted to decrease by \$204,050 or 3.9% over the previous year. Transfers to the General Fund are budgeted to increase by \$22,600 or 0.9% from the 2010 Budget. General property taxes make up 8.1% of the General Fund Budgeted Revenues. Sales tax receipts, which represent 9.9% of the budgeted revenues, are not projected to have any significant growth due to the down turn in the economy. The 2010 Millage Rate for property taxes is 2.99 mills which is the same as the 2009 millage.

Financial Contact

This financial report is designed to provide the citizens, taxpayers, customers and creditors of the City with a general overview of the City of LaFayette finances and demonstrate the City's accountability for the money it receives. If you have questions about the report or need additional financial information, contact the City of LaFayette at P.O. Box 89, LaFayette, Georgia 30728.

Reconciliation of the Balance Sheet to the Statement of Net Assets

Fund Balances - Total governmental funds \$ 1,012,733

Amounts reported for governmental activities in the statement of net assets are different because:

Capital assets used in governmental activities are not financial resources and are therefore not reported in the governmental funds. 6,756,948

An internal service fund is used by management to charge the costs of self-insurance to individual funds. The assets and liabilities of the internal service fund are included in governmental activities in the statement of net assets. (197,675)

A portion of deferred revenue in the general fund represents property tax billed but uncollected and is eliminated in the statement of net assets. 15,964

Long-term liabilities are not due and payable in the current period and therefore are not reported in the governmental funds. Other related amounts include deferred issue costs.

Bonds Payable	(2,905,000)	
Unamortized Bond Issuance Costs	105,807	
Compensated Absences	<u>(134,042)</u>	
		<u>(2,933,235)</u>

Net assets of governmental activities \$ 4,654,735

**CITY OF LAFAYETTE, GEORGIA
RECONCILIATION OF THE STATEMENT OF REVENUES,
EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED SEPTEMBER 30, 2010**

Net Change in Fund Balances - Total Governmental Funds \$ (1,455,845)

Amounts reported for Governmental Activities in the Statement of Activities are different because:

Governmental funds report capital outlays as expenditures while governmental activities report depreciation expense to allocate those expenditures over the life of the assets. This is the amount by which capital outlays exceeded depreciation in the current period.

Expenditures for capital assets	1,113,142	
Less current year depreciation	<u>(343,314)</u>	
		769,828

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the governmental funds.

Unavailable deferred property tax revenues	3,422
--	-------

Issuance of long-term debt (bonds, leases) provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the Statement of Net Assets. Repayment of principal of long-term debt is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Assets.

Principal Payments on Bonds	495,000
-----------------------------	---------

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds.

Net change in long-term compensated absences	6,147
--	-------

Internal service funds are used by management to charge the costs of self-insurance to individual funds.

The net loss of certain activities of internal service funds is reported with governmental activities.	<u>(9,718)</u>
--	----------------

Change in Net Assets of Governmental Activities	<u>\$ (191,166)</u>
---	---------------------

City of LaFayette, Georgia
Notes to Financial Statements
September 30, 2010

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of LaFayette was incorporated September 30, 1835. The City operates under an elected mayor and council who appoint a city manager. The City provides the following services as authorized by its charter or statutes: culture and recreation, streets and roads, public utilities (electric, gas, water/sewer, sanitation), public safety (police and fire), community development, cemetery, garage, airport, golf and general and administrative services.

A. Reporting Entity

As required by generally accepted accounting principles, the financial statements would present the primary government and its component units. Certain potential component units might be considered for inclusion in the financial report because of the significance of the City's influence over their operation or finances. Significant influence or accountability is based primarily on operational or financial relationships with the City (as distinct from legal relationships). In accordance with the above criteria, the City does not include any component units in its financial report.

Related organization:

The LaFayette Housing Authority is a related organization that has not been included in the reporting entity. The Authority provides low-income housing to eligible families in the City. The Authority's Board consists of five members that are appointed by the Mayor of LaFayette. The City is not financially accountable (does not impose will or have a financial benefit or burden relationship) for the Authority.

The Downtown Development Authority is a related organization that has not been included in the reporting entity. The Authority's current year cash balance was less than \$11,000, with no activity for the year. Based upon the materiality level of the city the Authority was not included with the City's financial statements.

B. Government-wide and Fund Financial Statements

The basic financial statements include both government-wide and fund financial statements, each of which present different views of the City. The government-wide and fund financial statements categorize primary activities as either governmental or business type.

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the primary government. For the most part, the effect of inter-fund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes, intergovernmental revenues, permits and fines, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported as *general revenues*.

Fund financial statements emphasize major funds in either the governmental and proprietary funds. Non-major funds (if any) are reported as a separate column in the fund financial statements

City of LaFayette, Georgia
Notes to Financial Statements
September 30, 2010

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The financial statements of the City have been prepared in conformity with generally accepted accounting principles (GAAP) as applicable to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The City applies all relevant FASB pronouncements and APB opinions issued on or prior to December 1, 1989 to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. The City does not apply FASB pronouncements and APB opinions issued after November 30, 1989.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary and fiduciary funds financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgements, are recorded only when payment is due.

Taxes, licenses, and interest associated with the current fiscal period are all considered susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when the government receives the cash. In applying the susceptible to accrual concept, nonexchange transactions are recognized in accordance with GASB Statement 33.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, and unrestricted as needed.

D. Fund Types and Major Funds

Governmental Funds

The general and capital project funds are the major governmental funds that the City reports. The general fund is the primary fund of the City and accounts for all financial resources not reported in other funds. The hotel/motel tax special revenue fund accounts for the proceeds of the hotel/motel tax. The capital projects fund accounts for the acquisition and construction of major capital assets other than those accounted for by proprietary funds.

Proprietary Funds

Proprietary funds are used to account for operations for which a fee is charged to external users for goods or services and the activity is intended to be self-supporting. The City reports the airport, electric, gas, golf, water and sewer, and solid waste funds as major funds. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues are charges to customers for sales and services. These funds recognize as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the system. Operating expenses for

City of LaFayette, Georgia
Notes to Financial Statements
September 30, 2010

enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Internal Service Funds

The Self Insurance internal service fund accounts for risk management activities of the City on a cost reimbursement basis. The internal service fund is a proprietary fund reported with governmental activities in the government-wide statements.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the government's proprietary funds and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions.

Amounts reported as program revenues include charges to customers for good, services or privileges provided, operating grants and contributions, and capital grants and contributions, including special assessments. General revenues include all taxes.

E. Assets, Liabilities, Net Assets or Equity

1. **Cash.** Cash includes amounts in demand and time deposits that by law must be insured or collateralized. Investments, if any, are limited by law and bond ordinances to federal and state securities.
2. **Receivables.** All receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible. Estimated unbilled revenues from the enterprise funds are recognized at the end of each year on a pro rata basis. The estimated amount is based on billings during the month following the close of the fiscal year.
3. **Due To and Due From Other Funds/Internal Balances.** During the course of operations, numerous transaction occur between individual funds for goods provided, services rendered or interfund loans. Interfund transactions are recorded by all funds affected in the period in which transactions are executed. In the government-wide financial statements, these balances are reported as internal balances.
4. **Interest Receivable.** Interest on investments and certain receivables is recorded as revenue in the year the interest is earned and is available to pay liabilities of the current period.
5. **Inventories.** Inventories for all governmental funds are recorded as expenditures when purchased; however, material amounts of inventories are reported as assets of the respective fund and accounted for using the purchases method. Reported inventories in these funds are equally offset by a fund balance reserve, which indicates they are unavailable for appropriation even though they are a component of reported assets. Inventories of proprietary funds are valued at the lower of cost (first-in, first-out) or market.
6. **Prepays.** Prepays represent the amount paid in advance for Georgia sales tax on sales of electricity and gas.
7. **Other Assets.** Other assets held are recorded and accounted for at cost.
8. **Restricted Assets.** The Water and Sewer Fund, based on certain bond covenants, are required to establish and maintain prescribed amounts of resources that can be used only to service outstanding debt or for construction. The "bond debt service and reserve cash" accounts are used to segregate resources accumulated for debt service payments and to report resources set aside to cover the highest

City of LaFayette, Georgia
Notes to Financial Statements
September 30, 2010

debt service requirement in any subsequent year. The "renewal and replacement cash" account is used to report resources set aside to meet unexpected contingencies or for asset replacement. The "construction cash" account is used to report resources set aside to fund construction projects.

9. **Capital Assets.** The City's property, buildings, equipment and infrastructure (streets, bridges, curbs, sidewalks, drainage systems, lighting system, etc) with useful lives of more than one year and a cost greater than two thousand dollars are capitalized and depreciated. These assets are reported in the applicable governmental or business-type activity columns in the government-wide financial statements. All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Assets acquired by gift or bequest are recorded at their fair market value at the date of transfer. Interest expense (net of related income) incurred during the construction phase of business-type capital assets is capitalized as part of the assets' cost.

Capital assets are depreciated using the straight-line method. When these assets are disposed, the cost and related accumulated depreciation are removed from the accounts and the resulting gain/loss is recorded.

10. **Long-term Debt, Bond Discounts and Issuance Costs.** Outstanding debt and other obligations are reported as a liability in the government-wide and proprietary financial statements. Bond discounts/premiums and issuance costs for proprietary funds are capitalized and amortized over the term of the respective bonds using a method that approximates the effective interest method. Bond discounts are presented as a reduction in the face amount of bonds payable, premiums are presented as an increase of the face amount of bonds payable and issuance costs are recorded as deferred charges.

In the fund financial statements, governmental funds recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of the debt issued is reported as an other financing source. Premiums received on debt issuances are reported as other financial sources while discounts on debt issuances are reported as an other financing use.

11. **Pensions.** The provision for pension cost is recorded on the accrual basis, and the City's policy is to fund pension costs as they accrue.
12. **Compensated Absences.** Full-time, permanent employees are granted vacation and sick leave benefits. Vested or accumulated vacation leave is accrued in the government-wide and proprietary financial statements and governmental funds report only the portion expected to be liquidated within the current year. Governmental funds report compensated absences only when employees are no longer employed with the City. For governmental activities, compensated absences are liquidated by the general fund. No liability is reported for non-vesting accumulating rights to receive sick leave.

13. **Fund Equity/Net Assets.** The governmental fund financial statements reports reserved fund balance for amounts not available for appropriation or legally segregated for a specific use.

Unrestricted net assets for proprietary funds represent the net assets available for future operations or distribution. Restricted net assets represent the net assets that have been legally identified for specific purposes.

NOTE 2. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

Budgetary Data. Formal budgetary accounting is employed as management control for all governmental funds of the City. Department heads submit their annual budget requests to the City Manager, who in turn compiles and submits the budget to the City Council. Public hearings are conducted to obtain taxpayer comments. By September 1, an annual operating budget is adopted for the general fund through passage of an annual budget ordinance and amended as required. The budget uses the same basis of accounting to reflect actual revenues and expenditures/expenses recognized on a generally accepted accounting basis.

City of LaFayette, Georgia
Notes to Financial Statements
September 30, 2010

The appropriated budget is prepared by fund, function and department. The City's department heads may make transfers of appropriations within a department. Transfers of appropriations between departments require the approval of the governing council. The legal level of budgeting control is the department level. The governing council made several supplemental budgetary appropriations throughout the year but they were not considered material. All appropriations lapse at the end of each fiscal year.

The capital projects fund has a project length budget which was adopted when voters approved the SPLOST referendum. This budget is prepared for the projected total SPLOST revenues and capital outlays.

Compliance with Bond Covenants. The City complied with its bond covenants in all material respects.

Deposits with Financial Institutions. State statutes require that the City's deposits be collateralized by securities held in the name of the City by the trust department of a bank that does not hold the collateralized deposits.

Deficit Fund Equity. The Drug Task Force fund had a deficit fund balance of \$580 as of September 30, 2010, which is the effect of timing differences in outlays and revenues. This is expected to reverse itself in the next fiscal year.

NOTE 3. CASH AND INVESTMENTS

Cash and investments as of September 30, 2010 are classified in the financial statements as follows:

Statement of Net Assets:	
Cash	\$ 1,956,425
Restricted Cash	2,745,096
Total Cash	<u>\$ 4,701,521</u>

All deposits with financial institutions are fully insured or collateralized by securities held in the City's name. The City's cash and cash equivalents are considered to be cash on hand, demand deposits and certificates of deposit. Investments are stated at fair value (the City has no investments other than cash.)

Cash and investments consist of the following:

Cash on hand	\$ 900
Cash deposits in financial institutions	2,408,858
Investments	2,291,763
Total Cash and Investments	<u>\$ 4,701,521</u>

Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This can be measured by the assignment of a rating by a rating organization. The City does not have a formal policy that addresses credit risk.

City of LaFayette, Georgia
Notes to Financial Statements
September 30, 2010

Concentration of Credit Risk

Concentration of credit risk is defined as the risk of loss attributed to the magnitude of an investment in a single issuer. The City has no investments that meet the criteria for concentration of credit risk disclosure. The City does not have a formal policy that addresses concentration of credit risk.

Custodial Credit Risk

Custodial credit risk is the risk that in the event of the failure of the custodian, the City may not be able to recover the value of its investments. There is no custodial credit risk exposure for the City's investments because they are either insured or held in the City's name by the custodian. The City does not have a formal policy that addresses custodial credit risk.

NOTE 4. RECEIVABLES

Accounts receivable consists of amounts due from customers for charges related to providing electric, gas, water/sewer and sanitation services. Taxes due consist of property tax and LOST. Amounts due as of September 30, 2010, including the applicable allowances for uncollectible accounts, are as follows:

	<u>General</u>	<u>Capital Projects</u>	<u>Enterprise</u>	<u>Total</u>
Receivables				
Accounts	\$ 4,243	\$ -	\$ 3,938,969	\$ 3,943,212
Taxes	<u>122,471</u>	<u>54,201</u>	<u>60,731</u>	<u>237,403</u>
Total	126,714	54,201	3,999,700	4,180,615
Less: Allowance for Uncollectible	<u>(9,814)</u>	<u>-</u>	<u>(1,416,477)</u>	<u>(1,426,291)</u>
Net Total Receivables	<u>\$ 116,900</u>	<u>\$ 54,201</u>	<u>\$ 2,583,223</u>	<u>\$ 2,754,324</u>

Property Tax

Property tax is levied upon receipt of the digest from Walker County and based upon the assessed value at January 1. Taxes were levied October 15, 2009 and due by December 20, 2009. The billings are considered past due 60 days after the tax billing date, at which time the applicable property is subject to lien and penalties and interest begins to accrue. Assessed values are established by the Walker County Board of Tax Assessors and are currently calculated at 40% of market value. The gross assessed value of property at January 1, 2009 was \$152,750,459. Based on the 2009 millage levy of 2.99, a property owner would pay \$2.99 per \$1,000 of assessed valuation. Current tax collections of \$382,997 were 94 percent of the tax levy.

All property taxes are recognized in compliance with NCGAI-3 (Revenue Recognition-Property Taxes) which states that such revenue is recorded when it becomes measurable and available. Available means due, or past due, and receivable within the current period and collected no longer than 60 days after the close of the current period.

City of LaFayette, Georgia
Notes to Financial Statements
September 30, 2010

NOTE 5. INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS

As of September 30, 2010, interfund receivables and payables that resulted from various interfund transactions were as follows:

<u>Receivable Fund</u>	<u>Payable Fund</u>	<u>Amount</u>
General	Water/Sewer	\$ 1,700,985
	Capital Projects	7,955
	Golf	1,319,394
	Airport	365,541
	Solid Waste	91,703
	Technology	15,108
Electric	General	2,477,037
	Water/Sewer	5,730
	Gas	5,730
Gas	General	845,501
	Capital Projects	20,499
Water/Sewer	Healthcare	193,095
	Solid Waste	2,652
Airport	Capital Projects	6,337

The interfund balances related to working capital loans between funds. No significant portion of the outstanding balances is expected to be repaid in the subsequent year.

As of September 30, 2010, interfund transfers were as follows:

<u>RECEIVING FUND</u>	<u>TRANSFERRING FUND</u>								
	<u>General</u>	<u>Police</u>	<u>Hotel Motel</u>	<u>Capital Projects</u>	<u>Water/Sewer</u>	<u>Electric</u>	<u>Gas</u>	<u>Solid Waste</u>	<u>Total</u>
General	\$ -	\$ 19,350	\$ 33,137	\$ -	\$ 720,668	\$ 1,198,384	\$ 552,000	\$ 36,000	\$ 2,559,539
Airport	-	-	-	5,052	-	-	-	-	5,052
Self-Insurance	159,298	-	-	-	-	-	-	-	159,298
Water / Sewer	-	-	-	121,720	-	-	-	-	121,720
Golf	-	-	-	53,080	-	-	-	-	53,080
Capital Projects	358,328	-	-	-	-	-	-	-	358,328
Solid Waste	-	-	-	14,000	-	-	-	-	14,000
Total	<u>\$ 517,626</u>	<u>\$ 19,350</u>	<u>\$ 33,137</u>	<u>\$ 193,852</u>	<u>\$ 720,668</u>	<u>\$ 1,198,384</u>	<u>\$ 552,000</u>	<u>\$ 36,000</u>	<u>\$ 3,235,017</u>

City of LaFayette, Georgia
Notes to Financial Statements
September 30, 2010

Routine transfers and payments between funds are to subsidize operations, fund capital projects and asset acquisition. SPLOST funds are accumulated in the capital project fund to complete various projects identified in the SPLOST referendum.

NOTE 6. CAPITAL ASSETS

The following table provides a summary of the City's capital asset activity:

Primary Government

<u>Governmental activities:</u>	<u>Balance</u> <u>October 1, 2009</u>	<u>Additions</u>	<u>Deletions &</u> <u>Transfers</u>	<u>Balance</u> <u>September 30, 2010</u>

City of LaFayette, Georgia
Notes to Financial Statements
September 30, 2010

Depreciation expense was charged to functions/programs of the government as follows:

Governmental activities:

General government	\$	23,183
Police		90,667
Fire		86,483
Public works		90,534
Engineering		513
Recreation		51,934
		<hr/>
Total depreciation expense	\$	<u>343,314</u>

Business-type activities:

Electric	\$	225,080
Gas		33,227
Water and Sewer		729,087
Solid Waste		70,581
Golf		60,788
Airport		197,533
		<hr/>
Total depreciation expense	\$	<u>1,316,296</u>

Estimated useful lives used to compute depreciation are:

Infrastructure	30 years
Improvements	5-20 years
Equipment	3-10 years
Buildings	20-50 years
Utility Systems	20-75 years

NOTE 7. LEASES

The City has no outstanding operating or capital leases as of year-end.

City of LaFayette, Georgia
Notes to Financial Statements
September 30, 2010

NOTE 8. LONG-TERM DEBT

Debt outstanding as of September 30, 2010 is composed of the following:

General Obligation Bonds

	<u>Interest Rates</u>	<u>Date of Issue</u>	<u>Date of Last Payment</u>	<u>Amount Issued</u>	<u>Amount Outstanding</u>
Governmental Activities:					
SPLOST Bonds	3.97%	11/06/08	6/1/2015	\$ 3,400,000	<u>\$ 2,905,000</u>

The following schedule presents debt service requirements to maturity for general obligation bonds:

<u>Year Ending September 30</u>	Governmental Activities	
	<u>Principal</u>	<u>Interest</u>

Note 9. OTHER COMMITMENTS

Under the terms of a power sales contract dated October 1, 1975 and for a period not to exceed 50 years, the City agrees to purchase its electric power and energy through the Municipal Electric Authority of Georgia (MEAG). This energy is priced to cover MEAG's cost of operating the system and to retire any debt incurred by MEAG. In return, MEAG agrees to purchase or provide the generating capacity necessary for reliable and economical power output for the City to operate its electric system. In the event that the operating revenues of the City's electric system are insufficient to cover its obligation to MEAG, or the City does not purchase the required amount of electric power and energy as specified in the contract (calculated annually), the City has agreed to assess and collect property tax sufficient to make all remaining payments due under this contract. At September 30, 2010, the outstanding debt of MEAG was \$4,048,476,161. The City's guarantee varies by individual project and totals \$51,481,183.

NOTE 10. PENSION PLAN

Plan Description. The City has a non-contributory defined benefit plan covering all full time employees. The plan was established by the City and the authority to amend or discontinue the plan is assigned to the City. The plan, the *City of LaFayette Retirement Plan*, is administered by the Georgia Municipal Employees Benefit System (GMEBS) a statewide, agent multiple employer defined benefit plan. GMEBS policy direction and oversight for the fund is provided by a 15 member board comprised of elected and appointed municipal officials from among the fund's membership. GMEBS handles all administrative and investment functions relative to the plan. The plan provides pension benefits and death and disability benefits for all employees that have been employed full time for one year and employees are vested after 5 years. Members may retire at age 65 with 5 years of service or at age 55 with 10 years of service. Benefits are calculated at 1% to 1.75% of the average monthly earnings for the period of the five highest years prior to retirement.

The Georgia Municipal Employees Benefit System issues a publicly available annual financial report that includes financial statements and required supplementary information. This report may be obtained by contacting the Georgia Municipal Employees Benefit System, C/O Georgia Municipal Association – Risk Management and Employee Benefit Services, 201 Pryor Street, SW, Atlanta, Georgia 30303.

Funding Policy and Pension Cost.

The funding policy for the plan is to contribute an amount equal to the recommended contribution in each year. The recommended contribution meets the guidelines for calculating an annual required contribution as set forth in GASB Statement No. 27. The period, and related method, for amortizing the initial unfunded actuarial accrued liability is 30 years from May 1, 1982, and the current changes in the unfunded actuarial accrued liability over 15 years for actuarial gains and losses, 20 years for plan provisions and 30 years for actuarial assumptions and cost methods as a level dollar amount. These amortization periods, if applicable, are closed for this plan year. On the basis of the current valuation, it was determined that the current contribution rate is 10.48% of annual covered payroll.

The Plan is subject to the minimum funding standards of the Public Retirement Systems Standards Law (Georgia Code Section 47-20-10). The estimated minimum annual contribution under these funding standards is \$387,451. The employer contributes the recommended contribution developed under the actuarial funding policy each year, so it meets or exceeds the requirements of this law.

The recommended contribution to the plan from the actuarial report dated May 1, 2009, was \$547,087 (\$0 employee and \$547,087 employer; 0% and 13.16% of covered payroll respectively). The City's covered payroll for eligible employees was \$4,156,934. Based upon the actuarial valuation of January 1, 2010, the recommended contribution for the coming year is \$425,394, which is 10.48% of estimated payroll of \$3,953,883.

City of LaFayette, Georgia
Notes to Financial Statements
September 30, 2010

Funded Status

GASB No. 27 requires disclosure of the City's annual pension cost, percentage of annual percentage cost contributed and net pension obligation for the most recent three years.

Three-Year Trend Information

Plan Year Ending	Employer Annual Pension Cost (APC)	Percentage Of APC Contributed	Net (EOY) Pension Obligation
January 1, 2010	\$ 283,050	100%	\$ 0

Significant Actuarial Assumptions

The significant actuarial assumptions used to compute the actuarial accrued liability and the annual recommended contribution of the plan meet the Actuarial Standard of Practice No. 4, Measuring Pension Obligations, establishing generally accepted actuarial principles and practices.

The significant actuarial assumptions used in the current valuation are:

Rate of Return on Investment	7.75% per year
Projected Salary Increase for Inflation	3.5% per year
Postretirement Benefit Increases	Not Applicable
Economic Assumptions	
Annual Rates of increase in Salaries	Per rate tables

City of LaFayette, Georgia
Notes to Financial Statements
September 30, 2010

Future Social Security Wage Bases	3.5%
Cost of Living Adjustment	N/A
Actuarial Methods	
Normal Cost and Actuarial Accrued Liability	Projected Unit Credit
Amortization method	Level dollar
Actuarial Value of Assets	Roll forward prior year's actuarial value with contributions, disbursements, and expected return on investments, plus (minus) 10% of the amount that Market Value of Assets exceeds (is less than) Expected Actuarial Value of Assets

The plan provisions and actuarial assumptions and cost methods are the same as those used to determine the contribution requirement for the preceding year.

As of May 1, 2010, the plan membership includes the following categories of participants:

Retirees and beneficiaries currently receiving benefits	67
Terminated employees entitled to benefits but not yet receiving them	51
Vested active participants	100
Nonvested participants	<u>26</u>
Total	<u>244</u>

NOTE 11. SPECIAL LOCAL OPTION SALES TAX

In June 1998, voters approved a referendum to continue collection of a 1% Special Local Option Sales Tax. Collection of the tax began on October 1, 1998 with the first payment received in December 1998. The proceeds from this sales tax are to be used to pay principal and interest installments on the 1998 Public Facilities Revenue Bonds and to construct various water/sewer, airport, recreation, street and sidewalk improvements.

In June 2003, voters approved a referendum to continue collection of a 1% Special Local Option Sales Tax. Collection is schedule to begin on October 1, 2003 and end September 2008. The City's distributive share of this tax is projected to be \$3,209,250 or 11.67%. The proceeds from this sales tax are to be used for acquisition and construction of improvements and the purchase of equipment for public safety, solid waste, recreation and water and sewer, the acquisition of public works equipment, the acquisition, construction and equipping of new streetscapes, new buildings and improvements for public works and equipment, building and improvements for the municipal airport.

In June 2008, voters approved a referendum to continue collection of a 1% Special Local Option Sales Tax. Collection is schedule to begin on October 1, 2008 and end September 2014. The City's distributive share of this tax is projected to be \$4,434,600, or 11.67%. The proceeds from this sales tax are to be used for acquisition and construction of improvements and the purchase of equipment for public safety, solid waste, recreation and water and

City of LaFayette, Georgia
Notes to Financial Statements
September 30, 2010

sewer, the acquisition of public works equipment, the acquisition, construction and equipping of new streetscapes, new buildings and improvements for public works and equipment.

NOTE 12. EXCESS OF EXPENDITURES OVER APPROPRIATIONS

Expenditures exceeded appropriations in the following General Fund departments as follows:

General Government	\$ 125,114
Police	107,760
Fire	31,453
Public Works	415,030
Engineering	31,140
Recreation	94,955
Garage	40,543
Animal Control	10,330

In order to prevent excess expenditures in the following years, the City's management will monitor monthly budget reports and make adjustments or amendments when necessary, with approval from the City Council.

The fund balance in the City of LaFayette General Fund was \$196,308 for the year ended September 30, 2010.

NOTE 13. RISK MANAGEMENT

The City is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the City's attorney the resolution of these matters will not have a material adverse effect on the financial condition of the City.

The City is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; errors and omissions; injuries to employees and natural disasters. The City has joined with other municipalities in the state as part of the Georgia Interlocal Risk Management Agency (GIRMA) for its property and liability insurance, and the Worker's Compensation Self-Insurance Fund (WCSIF) for injuries to employees. Both are public entity risk pools currently operating as common risk management and insurance programs for member local governments. The Georgia Municipal Association (GMA) administers both risk pools.

As part of these risk pools, the City is obligated to pay all contributions and assessments as prescribed by the pools, cooperate with the pools' agents and attorneys, follow loss reduction procedures established by the funds and to promptly report all incidents which could result in the funds being required to pay any claim of loss. The City is also to allow the pools' agents and attorneys to represent the City in investigation, settlement discussions and all levels of litigation arising out of any claim made against the City within the scope of loss protection furnished by the funds.

The funds are to defend and protect its members against liability or loss as prescribed in the member governments' contracts and in accordance with the workers' compensation laws of Georgia. The funds are to pay all cost taxed against members in any legal proceedings defended by the members, all interest accruing after entry of judgment, and all expenses incurred for investigation, negotiation or defense.

During the past three fiscal years the cost of any settlements have not exceeded insurance coverage.

City of LaFayette, Georgia
Notes to Financial Statements
September 30, 2010

NOTE 14. UNEARNED/DEFERRED REVENUES

Governmental fund unearned/deferred revenue at year-end is current year property tax revenues of \$15,964.

NOTE 15. RESTRICTED ASSETS

At September 30, 2010, the restricted assets account balances are comprised of the following:

Governmental activities:

	<u>General</u>
Restricted assets:	
Cash-grants	\$ 9,062
Cash-Perpetual care	96,500
Cash-Bond Debt Service	372,480
Total restricted assets	<u>\$ 478,042</u>

Business-type activities

	<u>Water/Sewer</u>	<u>Electric</u>
Restricted assets:		
Cash-MEAG	\$ -	\$ 1,335,767
Cash-Bond debt service and reserve	931,598	-
Cash-construction cash	23,012	-
Cash-Renewal and	3,162	-
Cash-GEFA loan account	675,795	-
Total restricted assets	<u>\$ 1,633,567</u>	<u>\$ 1,335,767</u>

NOTE 16. FUND BALANCE/NET ASSETS

Reserves are used to indicate that a portion of the fund balance/net assets is not available for appropriation or is legally segregated for specific future use. The following reserves are used by the City:

General and Capital Projects Funds:

Reserved for capital projects-Reserved for completion of construction projects financed by SPLOST proceeds.

Water & Sewer Fund:

Reserved for Debt Service and Renewals and Replacement. These reserves were created in conjunction with the issuance of revenue bonds and are funded by initial deposits from the proceeds of such bonds and by transfers from the revenue accounts to accounts that are restricted to debt service and payments for system renewals and extensions.

City of LaFayette, Georgia
Notes to Financial Statements
September 30, 2010

Fiduciary Fund:

Held in trust for revolving loans-This reserve was created to segregate a portion of the net assets as required by grant agreement.

NOTE 17. LANDFILL CLOSURE/POSTCLOSURE COSTS

The City of LaFayette operates a municipal solid waste landfill for City use only and does not accept waste from any outside parties. State and federal laws and regulations require that the City place a final cover on its landfill when closed and perform certain maintenance and monitoring functions for a period of 30 years after closure. While the City has immaterial operating costs related to the current activity at the landfill, an expense provision and related liability are being recognized based on projected future closure and postclosure care costs that will be incurred.

The recognition of these costs is based on the amount of landfill space used to date. The liability for landfill closure and postclosure costs at September 30, 2010 is \$24,929. Estimated total current cost of closure and postclosure care remaining to be recognized is \$373,467. However, the actual cost of closure and postclosure care may be higher due to the effects of inflation, changes in technology, or changes in landfill laws and regulations. The City currently meets applicable financial assurance requirements.

The landfill capacity used to date is approximately 6.0%. According to the most recent study, at the current usage rate, the estimated remaining life of the landfill is 437 years.

NOTE 18. HOTEL/MOTEL TAX REVENUES AND TOURISM EXPENDITURES

The City of LaFayette levies a 5% hotel/motel tax in accordance with provisions of the Official Code of Georgia section 48-13-51. This code section requires that the City expend an amount equal to the amount by which the total taxes collected under this section exceed the taxes that would be collected at a rate of 3 percent. For the year ended September 30, 2010, the amount the City collected was \$28,065. In accordance with a contractual agreement, 100% of this amount or \$28,065 had been paid to the Walker County Chamber of Commerce and was to be used for promotion of tourism.

NOTE 19. JOINT VENTURE

The City of LaFayette is a member of the Coosa Valley Regional Development Center (RDC). The RDC was created under the laws of the State of Georgia and cities and counties in the area served by the RDC are required to be members. The membership of the RDC includes 10 counties and 35 municipalities. The City has no equity interest in the RDC nor does the City materially contribute to the continued existence of the RDC. The Official Code of Georgia Annotated Section 50-8-39.1 states that in the event the RDC ceases operation, the membership can be assessed for any debt or obligation of the RDC. Separate financial statements may be obtained from: Coosa Valley Regional Development Center, P. O. Box 1793, Rome, Georgia 30162.

STATISTICAL SECTION

**CITY OF LAFAYETTE, GEORGIA
STATISTICAL SECTION
SEPTEMBER 30, 2010**

This part of the City's Comprehensive Annual Financial Report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health.

CONTENTS	<u>PAGES</u>
Financial Trends	
These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.	68-72
Revenue Capacity	
These schedules contain information to help the reader assess the City's most significant revenue source, the property tax.	73-76
Debt Capacity	
These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the Agency's ability to issue additional debt in the future.	77-80
Demographic and Economic Information	
These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place.	81-83
Operating Information	
These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs.	84-85

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

Source: Property in Walker County is reassessed annually. The county assesses property at approximately 40 percent of actual value for all types of real and personal property. Estimated actual value is calculated by dividing the assessed value by this percentage. Tax rates are per \$1,000 of assessed value.

⁽¹⁾ Includes tax-exempt property.

⁽²⁾ Data not currently available earlier than 2004. As it becomes available, and as future years' data accrue, ten years' worth of trend data will be presented.

City of Lafayette, Georgia
Direct and Overlapping Governmental Activities Debt
As of September 30, 2010

<u>Governmental unit</u>	<u>Debt Outstanding</u>	<u>Estimated Percentage Applicable⁽¹⁾</u>	<u>Estimated Share of Overlapping Debt</u>
Debt repaid with property taxes: Walker County	\$ 4,428,377	12%	\$ 531,405
City of Lafayette direct debt	<u>2,905,000</u>	100%	<u>2,905,000</u>
Total direct and overlapping debt	<u>\$ 7,333,377</u>		<u>\$ 3,436,405</u>

Sources: Assessed value data used to estimate applicable percentages provided by the Walker County Tax Commissioner. Debt outstanding data provided by Walker County and the City.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and business of the City of Lafayette. This process recognizes that, when considering the City's ability to issue and repay long-term debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt of each overlapping government.

⁽¹⁾ The percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of the County's taxable assessed value that is within the government's boundaries and dividing it by the County's total taxable assessed value.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND
OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

To the Honorable Mayor and
Members of the City Council
City of LaFayette, Georgia

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of LaFayette, Georgia, as of and for the year ended September 30, 2010, which collectively comprise the City of LaFayette, Georgia's basic financial statements and have issued our report thereon dated March 23, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the City of LaFayette, Georgia's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of LaFayette, Georgia's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the City of LaFayette, Georgia's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. However, as discussed below, we identified certain deficiencies in internal control over financial reporting that we consider to be significant deficiencies.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the City of LaFayette, Georgia's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the City of LaFayette, Georgia's financial statements that is more than inconsequential will not be prevented or detected by the City of LaFayette, Georgia's internal control. We consider the deficiencies described in the accompanying schedule of findings and questioned costs to be significant deficiencies in internal control over financial reporting. These deficiencies are listed as findings 09-2 and 10-1 in the Schedule of Findings and Questioned Costs.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the City of LaFayette, Georgia's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies and, accordingly, would not necessarily disclose all significant deficiencies that are also considered to be material weaknesses. However, we believe that the significant deficiencies described above are not material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of LaFayette, Georgia's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests did disclose instances of noncompliance that are required to be reported under *Government Auditing Standards*, and which are described in the Schedule of Findings and Responses as items 09-2 and 10-1.

We noted certain matters that we reported to management of the City of LaFayette, Georgia, in a separate letter dated March 23, 2011.

The City of LaFayette, Georgia's responses to the findings identified in our audit are described in the accompanying schedule of findings and responses. We did not audit the City of LaFayette, Georgia's responses and accordingly, we express no opinion on them.

This report is intended solely for the information and use of management, City Council, and the Georgia Department of Audits and is not intended to be and should not be used by anyone other than these specified parties.

CITY OF LAFAYETTE, GEORGIA
SCHEDULE OF FINDINGS AND RESPONSES
SEPTEMBER 30, 2010

Finding 09-2 Monthly and Year-End Adjusting Entries

Continues from previous year, some improvements have been made but it continues to be a finding and a problem for statements at year end.

Condition: The City required numerous adjusting and reclassifying entries at year-end. This results in the monthly statements being unreliable for the City Manager and council to use for planning and decision-making, in addition to contributing to budget overruns as items are correctly reclassified, sometimes resulting in departmental overruns.

Criteria: The monthly general ledger should be reviewed and adjusted as needed. The general ledger should be reconciled to subsidiary ledgers or other supporting documents.

Recommendation: The monthly working trial balance should be printed each month and the "month-end" balances compared to the following:

- Reconciled cash
- Outstanding billing reports
- Accounts payable reports
- Unpaid property tax reports
- Others as needed

Management's response: The prior City Clerk retired and the adjustment for the new City Clerk will require some additional training but we anticipate substantial reductions in the number of year-end adjustments required for the September 30, 2011 year-end. Additionally, we hope as economic conditions improve to be able to hire additional, capable accounting staff to augment the currently understaffed accounting department, which should greatly help.

Finding 10-1 Budget Reports

Condition: The City's actual expenditures exceeded the general fund budget as follows:

General Government	\$ 125,114
Police	107,760
Fire	31,453
Public Works	415,030
Engineering	31,140
Recreation	94,955
Garage	40,543
Animal Control	10,330

Criteria: The budget should control the expenditures for the City.

Recommendation: As the actual expenditures start to exceed the budget an amendment to the budget should be made or the expense should not be incurred. The City Manager and City Council should review the "budget vs. actual" expenditure report each month to make certain the City does not exceed approved spending levels.

CITY OF LAFAYETTE, GEORGIA
SCHEDULE OF FINDINGS AND RESPONSES
SEPTEMBER 30, 2010

Management's response: The City Clerk reviews the financial report and compares the "budget vs. actual" monthly. An annual budget amendment is normally made to account for overages in line items. We attempted to follow this procedure in the current year, but necessary expenditures, coupled with audit adjustments, most of which were as a result of inadequate financial staff due to the economic downturn, joined together to create unanticipated budget overruns. Additional staffing should mitigate this problem.
