TVAAS Composites: Hamilton County, All Schools

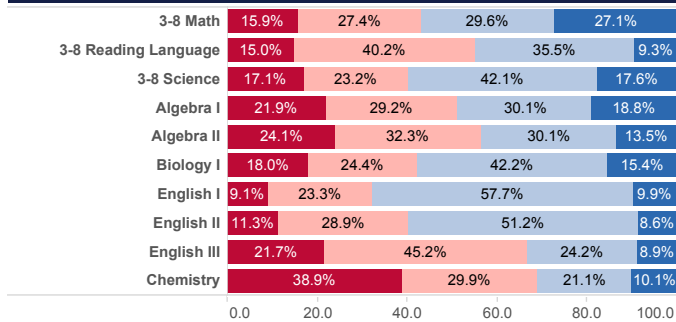

The Tennessee Value-Added Assessment System (TVAAS) is a statistical analysis used to measure the impact of districts, schools and teachers on the academic progress rates of groups of students from year-to-year. The TVAAS Composites listed here are scores that assess growth at the school or district level based on student performance on statewide assessments across all available subjects and grades. For districts that opted to test students in grades K-2 in years in which they are available, those scores are included in the composite. The file available at the below link indicates which districts had early grades data included in their composites each year. <http://www.k-12.state.tn.us/update/other/Early-grades-TVAAS-districts.xlsx>

TVAAS Composites are reported on a 1-5 scale and are one-year scores. Levels 4 and 5 indicate that a district or school is exceeding the expected growth, Level 3 indicates that they are making about the expected growth, and Levels 1 and 2 indicate that they are making less than the expected growth. The Overall TVAAS Composite includes all available data from the K-2 (SAT-10) assessment and from all applicable TCAP and EOC tests. The TVAAS Literacy Composite includes all literacy-focused tests included in the Overall TVAAS Composite. The TVAAS Numeracy Composite includes all numeracy-focused tests included in the Overall TVAAS Composite. The TVAAS Literacy and Numeracy Composite includes all tests included in the Literacy Composite and the Numeracy composite. More detailed TVAAS data can be viewed on the Public TVAAS Site (<https://tvaas.sas.com/welcome.html>).
