Dear Hamilton County Commissioners,

Each school year, the residents of Hamilton County entrust teachers with the care and education of their children. We wholeheartedly embrace this responsibility because we know that within each child rests the future of our community.

We work hard, often giving out of our own pockets to make sure our students have the things they need. The extra hours we put in, often at the expense of our own families, are given because we believe the work we do matters. Teachers do not expect to become wealthy in our line of work, but we do expect a fair wage.

The true test of whether or not our leaders support teachers is revealed in their actions, not empty praise. We are tired of hearing lip service from leaders whose votes do not match their rhetoric. Based on their actions, we have a group of elected officials who are content with our teachers being paid less than those in every surrounding district in both Tennessee and Georgia.

A student who promises to study for a test and fails to follow through only disappoints himself. Unfortunately, when our elected leaders say they support education, but fail to follow through with a vote that supports us- everyone in Hamilton County is affected. Sitting by and allowing some of our best teachers to be lured into surrounding counties with higher pay and better working conditions is not in the best interests of our community. Yet this is what they have chosen to do.

On two occasions this summer, Randy Fairbanks, Sabrena Smedley, Tim Boyd, Greg Martin, and Chester Bankston voted against fair pay for teachers.

Last week those same commissioners, Randy Fairbanks, Sabrena Smedley, Tim Boyd, Greg Martin, and Chester Bankston even voted against letting voters decide whether teachers deserve a competitive wage.

Actions speak so much louder than words, and these commissioners have repeatedly shown that they do not stand for teachers.

From now on, we will stand for ourselves and work to hold them accountable to the residents of Hamilton County.
