

Mr. Eaves,

I have been a reliable contactor for Hamilton County Schools for 13 years.

Jon McKenney has been a driver for me the past year and I have had numerous issues with his willingness cooperate on routes. These issues range from being argumentative about new stops to insubordination. There were a series of events that led to the latest issue. On Wednesday, I had to go to the bus route to ensure it was covered because he was not answering his phone. This morning he questioned my attendance at a meeting requested by transportation. In that conversation he asked what I thought about his facebook post and I stated that I did not like it. Jon then stated, "Then you need to fire me." After I replied that I would take care of the route from here, Jon then hung up on me and we have not communicated since.

I no longer employ Mr. McKenney as a driver on my routes. I will fulfill my responsibilities according to my contract with Hamilton County Schools and make sure that this route is covered.

Sincerely,

Jamie Lee
