Tax ID: Map 095; Parcel 104.00**

Ladies/Gentlemen:

This letter is sent to you as the second owner of the above referenced property.

It has come to my attention that activities, which appear to be the overburden removal of soil from the land's surface commonly associated with the operation of a quarry, rock crusher or gravel pit are being conducted on the above referenced property. As you are aware, such activities are regulated in Grundy County by Resolution No. 19-5-20c, as amended by Resolution No. 24-1-22A (Regulations), copies of which are enclosed.

The activities being conducted on your property appear to be in violation of the Regulations, as no Permit has been issued or ever applied for to conduct such activities on the property. Further, it appears that the operation of a quarry, rock crusher or gravel pit would not be permitted at this location due to being in violation of the distance requirements contained in the regulation.

In light of the above, I am respectfully requesting that you take the appropriate measures to see that such overburden removal activities currently being conducted on your property are ceased. If such activities continue to be conducted on your property, Grundy County will have no alternative but to take the appropriate action to enforce its Regulations.

If you desire to submit an application to operate a quarry, rock crusher or gravel pit in Grundy County, you may obtain one in the Office of the County Clerk in the Grundy County Courthouse, 68 Cumberland Street, Altamont, Tennessee.

Thank you for your attention to this matter.

Very Truly Yours,

Michael Brady, Mayor
